TP-2000HD

**Tram-Pak
Stationary Compactor**

Designed For

- * Retailers * Hospitals * Hotels * Distribution Centers *
- * Manufacturing Centers * Recycling Centers * Home Centers *

When the TP-2000HD Series was designed, we challenged our engineers to see how long the machines could hold up in the field. We are pleased to say those machines originally built in the early 70's are still performing. All components are built using heavy-duty structural steel components and welded by AWS certified technicians. This unit has total U.L. approval, standard 3 button controls (On/Off key switch, mushroom stop, auto reverse) and a 13' Sealtite.
