Tram Pak (TP) Series Stationary Compactors are professionally engineered with Superior Strength and Safety in mind. Every unit is constructed from structural steel and is built with Reliability & Durability for years of dependable service!

www.PTRCO.com
PTR has Professionally Designed & Engineered it’s Stationary Compactors for long lasting performance and durability.

PTR manufactures a full array of stationary compactors from our smallest Apartment Compactor the TP-33 to the TP-5000 (5 cu yd) we will be able to meet your requirements.

Totally Listed!

PTR has TOTAL UL approval on the entire compactor. We also have TOTAL UL approval on all of our Balers and Self-Contained compactors.

The TP series is a reliable durable compaction system that allows waste generators to reduce there removal costs. Each unit provides the following Cost Saving Benefits:

- Less Labor in Breaking Down Boxes
- Prevents Pilferage
- Discourages Scavengers
- Reduces Collection Costs
- Reduces Insect/Rodent Concerns
- Prevents Windblown Trash
- Reduces Fire Hazards
- Saves Space Inside

PTR provides 24 hour factory service and parts!
New! **CERTIFIED WELDING!**
All critical welds are done by Certified AWS Category I & II Craftsmen. With 92,000 PSI tensile strength, PTR’s welds are actually stronger than steel!

**QUALITY**
High Reliability, Low Maintenance Power Unit!
Easily accessible, PTR’s powerful high torque power units provide Excellent service and long term durability.

**DURABILITY**
Easy and Convenient Operation!
Tram Pak Compactors offer “user friendly” controls that are housed inside a NEMA 4 enclosure and connected to the power pack with 13 ft. of Seal-Tite.

**CONVENIENCE**
Innovative One-Piece Charge Box!
PTR’s unique one-piece Charge Box combines Fixtured construction with superior material strength, eliminating the potential of broken welds or inferior sidewall floor mating.

**NEW!**
PTR offers SALES, LEASE and RENTAL options!
PTR’s 150,000 square foot facility brings together the skills of experienced craftsmen with the latest in product design technology.

A PTR Stationary Compactor provides significant waste removal savings for this food chain end user. PTR’s Stationary Compactors are designed to work efficiently for both walk-on and security chute applications.

The Tram Pak (TP) Series Stationary Compactors are stress engineered and allow maximum operating pressures and cylinder pressure to ensure PAK-TITE containers. Each unit is fully tested before it leaves our manufacturing facility and meets all ANSI specifications.

Tram Pak Stationary Compactors utilize high-torque motors, soft shift control values and are constructed to withstand harsh environments while providing years of uninterrupted service while offering the highest forces in the industry.

The **Mini Max** Series offers full 2 or 3 cu yd feed openings in a smaller footprint!
PTR Advantage: PERFORMANCE, DURABILITY & CRAFTSMANSHIP

OPTIONAL FEATURES INCLUDE:

- Trash Monitoring Systems
- Sonalizaire Odor Control Systems
- Oil Heater
- Multi-Cycle Timers
- Units can be constructed to accommodate: walk up, walk on, chute feed, total enclosures or cart dumpers

CAPACITY

- Charge Box Capacity (YDS³): .33, .75, 2, 2, 2, 2, 2, 3.2, 3.2, 4
- N.S.W.M.A. Rating (YDS³): .28, .6, 1.6, 1.6, 1.6, 1.6, 1.8, 2.6, 2.6, 3
- Clear Top Opening (L X W): 24 x 30, 36 x 37, 40 x 60, 40 x 60, 40 x 60, 40 x 60, 68 x 60, 68 x 60, 68 x 60

PERFORMANCE

- Cycle Time (SEC): 32, 37, 31, 65, 65, 46, 60, 65, 65
- Normal Force (LB): 8500, 20000, 43000, 44000, 51000, 52000, 59000, 64000, 62000, 62000
- Maximum Force (LB): 11300, 25000, 51600, 52000, 65000, 70000, 76000, 74000, 79000
- Maximum Ram Force (P.S.I): 20.9, 34, 29, 28.2, 36, 39, 42.4, 41, 39
- Ram Penetration (IN): 8, 8, 6, 14, 14, 14, 13, 15, 15

ELECTRICAL

- Motor (H.P.): 3, 5, 10, 10, 10, 15, 15, 20, 20
- Control Voltage (VAC): 120, 120, 120, 120, 120, 120, 120, 120
- U.L. Approved: N
- Panel Box: N
- Emergency Stop: E
- Keylock: M
- Reverse: A
- Sealite: 1

HYDRAULICS

- Pump (G.P.M.): 3.1, 6.5, 10.5, 10.5, 15, 15, 15, 15
- Normal Pressure (P.S.I): 1200, 1600, 2000, 1550, 1600, 2100, 2150, 2200, 2200
- Maximum Pressure (P.S.I): 1600, 2000, 2400, 1850, 2300, 2500, 2650, 2600, 2800
- Cylinder (IN): 3, 4, 4, 6, 6, 6, 6, 6, 6
- Weight (LB): 2000, 3500, 4500, 4350, 4500, 5000, 6000, 6850, 8500

Machine Equipment such as multicycle timer, ozone odor control system, container full and advanced warning lights, remote control station and all structural options are available upon request. PTR specifications are subject to change without notice to accommodate product improvement. This equipment conforms to all applicable A.N.S.I. Z245.2 safety standards.
